### DISCUSSION OF SUA'S AT MADISON CAMPUS MEDICAL SCHOOL

Very few individual researchers at the UW Madison Medical School have SUA's. There is a licensed veterinarian on campus who reviews the medical school researchers' protocol and then prescribes the drugs to be used. The veterinarian maintains she has a valid client relationship with the researchers and the animals involved. The researchers purchase the drugs at cost from the veterinarian. The Board is concerned with the storage and security of these drugs when they are in the possession of the researchers, and the veterinarian should be made aware that she is ultimately responsible for these drugs.
